

10 ways to play in October

1

Go on a shape walk. How many different shapes can you find? If you bring a camera, you can take photos and make your own shape book.

2

Set-up a snack bar meal. Make a menu with prices and hand-out pretend (or real) money to buy food.

3

Make an "I Wonder..." poster.

Fill it with your questions in words and pictures.

4

Make something with cardboard tubes.

5

Set-up a pretend post office. Prop ideas: junk mail, envelopes, postcards, stickers, cash register, scale, boxes, mailbox, mail bag

6

Pour and mix colored water. Set out cups and small pitchers filled with colored water. Experiment with mixing and creating new colors. Muffin tins and pipettes (eye droppers) work well, too.

7

Visit a new-to-you park or hiking trail.

8

Practice your rolling, throwing, & catching skills.

- Bounce a ball and catch it.
- Throw the ball over your head or between your legs.
- Roll the ball, run to where it rolled, and jump over it.
- What other challenges can you try?

9

Play "Simon Says."

10

Trace your hand or foot. Make a picture with your tracing.

happy playing!
